Projects

CastQueue (Present) *(React, JavaScript, Tailwind CSS, Node.js, API)*

- Full-stack web platform that enables secure YouTube video uploads via Google OAuth 2.0, improving video publishing efficiency for creators.
- Integrated React, Node.js, Express, and the YouTube Data API to enable direct uploads with custom metadata from a streamlined UI.
- Solved the pain point of repetitive manual uploads by providing an intuitive dashboard for authenticated users, reducing publishing time and login friction.

Currency Converter (April 2025) *(HTML, CSS, JavaScript, API, Chart.js)*

- Built a responsive currency converter using real-time exchange rates from the Frankfurter API.
- Integrated Chart.js to display 7-day exchange rate trends.
- Enhanced user experience with intuitive UI and live conversion features.

Admin Dashboard (Feb 2025 - March 2025) *(React.js, Tailwind CSS, Firebase-Firestore)*

- Developed a dynamic admin dashboard with multiple pages and interactive charts.
- Utilized React.js for component-based architecture and Vite for fast development.

Video Chat App (Dec 2024 - Jan 2025) *(React.js, WebRTC, Node.js, Express, Socket.IO)*

- Developed a real-time video chat application using WebRTC for peer-to-peer communication.
- Implemented fronted with React.js and bundled using Vite for optimized performance.

Technical Skills

Languages	:	C++, JavaScript, HTML, CSS
Frameworks	:	React.js, Tailwind CSS
Backend	:	Node.js, Express, XAMPP, Firebase
Others	:	Git, Vercel, Gen AI

Certifications / Achievements

- Certified Web Developer by CodeHelp
- Participated in InnovMinds Expo at VIT Bhopal
- Solved 100+ DSA Questions - GeeksForGeeks

Additional Information

- Hobbies : Writing book and poetry.
- Languages : English, Hindi
